

Testimonial

Topps Paving & Sealing,

I want to let you know how pleased I am with the paving work you performed for my business, the Columns Banquet & Conference Center. From beginning to end, your crew was thorough and professional. First, I was provided with a detailed description of the work to be done which incorporated my concerns about drainage and the heavy traffic on the loading/unloading area. During construction, without hesitation, you modified the project to address additional concerns raised by one of the other owners. Finally, you took care to deliver what you promised. The lot drains well, the concrete work takes care of the heavy vehicles, the dumpster area looks good, and we have received several compliments on the improvements. I will be calling when the need for more work and preventative maintenance arises.

Best Wishes,

Sen. Tom Dempsey
